

NICHE & Co

welcome to our table

Every event is nuanced, our mission is simple: the relentless pursuit of incredible food, impeccable service, and beautiful presentation as original and remarkable as the reason you are celebrating at all. Somewhere betwixt the personal attention and attention to detail, your event unfolds. We have earned a reputation for catering outside the lines. And we promise to keep it that way.

Our professional chefs cook with heart, soul, synergy, quality ingredients and imagination to infuse your menu experience with the same kind of magic that brought you to this day. That thing you can't quite put your finger on? It's the essence of your event. And the essence of The Niche Experience. There probably aren't even words to describe it, but there is always the food they're still talking about. We have a seat at the table for you (and yours).
